

We will start from scratch, as nothing is pre-installed.

****Step 1:**** Download the practical zip file from the provided link and extract it.

****Step 2:**** Download and install the necessary applications for the Cassandra practical: Java (JDK 8), Python 2.7, and Apache Cassandra 3.11.

****Step 3:**** Add the installation location of the bin folder/files to the PATH environment variable.

Note: If Python is already installed, please uninstall it and remove it from all its paths, as it can create errors or problems.

Note: If there is a problem or issue during the extraction of the Cassandra folder, I have also provided a Google Drive link to download the Cassandra and JDK Python zip folder from it.

<https://drive.google.com/drive/folders/1F6z5gpDZLC6xE8ZtoGcqKmvejsfizgMK?usp=sharing>

Okay I find the issue the path is too long of Cassandra fix it:

C:\Users\shubb\OneDrive\Documents\Cassandra\apache-cassandra-3.11.4\bin

Make sure this path length is short

This output should come in cmd after completing all the things properly :

Microsoft Windows [Version 10.0.26200.7462]

(c) Microsoft Corporation. All rights reserved.

C:\Users\shubb>python --version

Python 2.7.17

C:\Users\shubb>java -version

openjdk version "1.8.0_472-472"

OpenJDK Runtime Environment (build 1.8.0_472-472-b08)

OpenJDK 64-Bit Server VM (build 25.472-b08, mixed mode)

```
C:\Users\shubb>where java
```

```
C:\Program Files\OpenLogic\jdk-8.0.472.08-hotspot\bin\java.exe
```

WARNING: console codepage must be set to cp65001 to support utf-8 encoding on Windows platforms.

If you experience encoding problems, change your console codepage with 'chcp 65001' before starting cqlsh.

Connected to Test Cluster at 127.0.0.1:9042.

[cqlsh 5.0.1 | Cassandra 3.11.4 | CQL spec 3.4.4 | Native protocol v4]

Use HELP for help.

WARNING: pyreadline dependency missing. Install to enable tab completion.

```
cqlsh>
```

From here we can start performing the practical's of Cassandra : cqlsh> CREATE KEYSPACE college
WITH replication = {'class':'SimpleStrategy',
... 'replication_factor' : 3};
